

Housing Advice and Support in North Prospect

Path is now to provide housing information, advice and advocacy for people living in North Prospect affected by regeneration. We are working with Plymouth Community Homes and see this as complementing other work with residents by Zebra and Plymfed.

We are planning for our work to consist of giving information and advice to people concerned about their:

1. future housing because of regeneration (people wanting to look at what will be offered for their move and how that will happen)
2. current housing (ie helping people who want support with their accommodation now)

We aim to work with residents mostly on an individual basis (not in groups), looking at individuals and families' needs and options. As well as the Regeneration team, we expect to work with the local Housing Office to ensure we are clear on people knowing and getting their options.

We would like to provide regular, scheduled drop-in sessions for residents but want to see what local people want and need first. So, we will work with Plymfed and Zebra to be available to people for appointments, drop-ins, via the telephone or other ways, as needed.
